APPENDIX.

CONDITIONS OF APPROVAL AND INSTRUCTIONS FOR DRAWING AND SENDING SAMPLES OF DISINFECTANTS AND LIST OF APPROVED BRANDS.

Instructions for drawing and sending samples of disinfectants.

1. Disinfectants will be tested chemically and bacteriologically. The chemical tests will be carried out at the Government Test House, Alipore, and the bacteriological tests at the Central Research Institute, Kasauli.

Manufacturers desiring the approval of the Governor General in Council to disinfectants—coal tar or other—for use on board ship should submit applications to the Secretary to the Government of India, Department of Commerce. A true copy of the application, together with samples drawn in accordance with the instructions detailed below, should at the same time be sent to the Superintendent, Government Test House, Alipore, for chemical examination, and another copy, with samples, to the Director, Central Research Institute, Kasauli for bacteriological examination. A sum of Rs. 48, being the fee charged for testing a sample chemically, should be paid into a Government Treasury in the name of the Audit Officer, Indian Stores Department, for adjustment under the head "XXVI-A—Indian Stores Department", and another sum of Rs. 85, being the fee for bacteriological examination, should be paid for adjustment under the head "XXII—Public Health, Miscellaneous—Central". The Treasury receipts should be forwarded, respectively, to the Superintendent, Government Test House, Alipore, and the Director, Central Research Institute, Kasauli, along with the true copy of the application and the samples. These officers after conducting the examination will submit their reports to the Department of Commerce and that Department will then issue final orders on the applications.

2. Liquid disinfectants should be thoroughly stirred or shaken according to circumstances before samples are drawn therefrom. In the case of solid disinfectants, specimens should be taken from various points and thoroughly mixed, and the samples required for despatch to the Government Test House, Alipore, and the Central Research Institute, Kasauli, should be drawn from the large sample so obtained. The mixing of the specimens should be carried out as expeditiously as possible so as to avoid undue exposure of the material to the atmosphere.

3. Two representative samples of each disinfectant should be drawn simultaneously from the same container, one for despatch to the Government Test House, Alipore, and the other for despatch to the Central Research Institute, Kasauli.

4. In the case of chlorine disinfectants, samples should not be sent to the Central Research Institute, Kasauli. Only one sample, in each case, should be drawn and sent to the Government Test House, Alipore.

5. If the disinfectant is a liquid, each sample should consist of at least half a gallon of the material. If it is a solid, two-pound samples should be drawn.

6. Samples of liquid disinfectants should be sent in bottles or in tins, and samples of solid disinfectants should be sent in wide-mouthed bottles.

7. Containers of samples should be scrupulously clean. They may be cleansed with water or petrol according to circumstances, but it is essential that the water or petrol should be completely removed by drying the containers before samples are placed in them. Kerosene should not be used for this purpose, as it cannot be completely removed by drying.

8. Bottles containing liquids should be nearly but not completely filled. If they are completely filled the stoppers may be forced open by the expansion of the liquid.

9. All containers should be properly sealed to prevent leakage, and bottles should be carefully packed to avoid breakage in transit.

10. Samples should be carefully labelled. A label may be a tag securely tied to a package or may be pasted on. If a label is pasted on a tin, it should go all the way round the tin and overlap, otherwise it will probably fall off. The label should state—

A. Name of material.
B. Name of firm sending sample.
C. Number and date of covering letter under which sample is sent.

11. A sample should not be sent without a covering letter. The covering letter should state full details of the sample, including a *statement of the manufacturer's formula of the product sent*.

12. Samples intended for despatch to the Government Test House, Alipore, and the Central Research Institute, Kasauli, should respectively be addressed exactly as follows:—

The Superintendent,
Government Test House,
Alipore, Calcutta.

The Director,
Central Research Institute,
Kasauli.

For the former if sent by rail on the E.I. Railway or the B.N. Railway, parcels should be consigned to Calcutta—Bhowanipore, E.I. Railway or B.N. Railway, as the case may be. If sent by rail on the E.B. Railway, these should be consigned to Kalighat, E.B. Railway. For the latter parcels should be booked to Kasauli Outer Agency, N.W. Railway, and the railway receipt forwarded to the Director, Central Research Institute, Kasauli.

13. The telegraphic addresses of the Superintendent, Government Test House, Alipore, and the Director, Central Research Institute, Kasauli, are "Sun", Calcutta, and "Prabhat", Kasauli, respectively.

Conditions of approval of disinfectants for ships.

I. *Phenol or Carbolic Acid and Coal Tar Disinfectants generally.*

Coal tar disinfectants are required to be approved by the Governor General in Council. The approved disinfectant must have a germicidal value, as determined by the Chick Martin technique as given by the Lister Institute, of not less than that of pure phenol when tested against B. Typhosus and it must be miscible with sea-water in the manner described on the containers so as to produce a 5 per cent emulsion or solution which shall show no appreciable separation after standing for six hours at the temperature of the air. It must not be unduly poisonous to higher animals and should not have any destructive action on wood, leather, linen or metals.

II. *Chlorine* may be carried either in the form of

(a) *Stabilised Chloride of Lime.*

Chloride of lime must be dry and suitably stabilised yielding not less than 30 *per cent by weight of available chlorine* and must be put up in tins of not more than 10 lb. per tin, the date of issue by the manufacturer being stamped on each tin. Each tin and contents, whether partly used or not, must be renewed within one year of the date stamped on the tin. Full instructions for the use of the powder for cleansing decks, bulkheads urinals, lavatory basins etc., must be given on the label attached to each tin. This material is not to be used for the sterilisation of drinking water, nor for the sterilisation of deposits, soiled utensils or apparel of persons suffering from a contagious or infectious disease.

If stabilised chloride of lime is carried on board ship the quantity of coal tar disinfectant may be reduced by not more than 50 per cent and the amount so reduced must be replaced by and equal weight of stabilised chloride of lime. *Solid chloride of lime disinfectants will be tested for strength, stability, lime and water as follows*:—

(1) The chloride of lime must be of approved quality.

(2) It must contain not less than 35 per cent of available chlorine.

(3) It must contain not less than 4 per cent of free quick lime (CaO).

(4) The total water existing in all forms, consisting largely, if not entirely, of water in combination in the form of calcium hydroxide, must not exceed 8.5 per cent.

(5) It must be of such stability that after being kept for four weeks in an oven at 140°F (±2°) the percentage of available chlorine shall not decrease more than 2½.

or (b) *Stabilised Hypochlorite Solution.*

If a stabilised solution of hypochlorite of soda is preferred to chloride of lime, this preparation may be carried on board in place of chloride of lime, provided the total quantity of available chlorine is the same. The amount of coal tar disinfectant carried may then be reduced by 40 per cent. The conditions and regulations as to its purpose and use are the same as for chloride of lime. The hypochlorite solution must yield at least 10 per cent of available chlorine. If the solution should at any time decrease in strength so that the available chlorine falls to less than 6 per cent, it must be replaced as soon as possible. The liquid is to be stored in stoneware jars or other containers not less than two gallons nor more than 10 gallons capacity, not liable to cause a diminution of the strength of the solution. The jars must be sealed either with stoneware stoppers or with stoppers which have no appreciable action in diminishing the strength of the solution. Unless it can be shown that the strength of the solution is unaltered, the disinfectant must be renewed at least once a year. The date

of sealing the containers and directions for use must be stated on a label adhering firmly to the jar.

Stabilised hypochlorite solution will be tested for strength and stability.—The stability of the solution will be tested by maintaining the liquid at 98°C for twenty-eight days when the available chlorine must not have decreased by more than 10 per cent of the total available chlorine originally present.

Or (c) In shops in which a non-water electrolyser is desired, capable of giving an unlimited quantity of medium hypochlorite solution containing not less than 0·1 per cent of available chlorine, the quantity of coal tar disinfectant carried may be reduced by not more than 50 per cent. The type of electrolyser must be approved by the Governor General in Council and subject to inspection from time to time. The conditions and restrictions as to the purpose and use of the hypochlorite solution are the same as those for chloride of lime or hypochlorite solutions in use.

III Stabilised chloride of lime put up in ½ lb. tins is intended to be used for sterilising *drinking* water. Instructions for use will be found at pages 12 13 of the 1928 edition of the Slug Cantor's Medical Guide. *The following conditions must be fulfilled before chloride of lime for treatment of drinking water* can be approved:—

(2) It must contain not less than 24 per cent and not more than 26 per cent available chlorine.

(3) It must contain not less than 14 per cent of free quick lime (CaO).

(4) The total water existing in all forms, consisting largely, if not entirely, of the water in combined on in the form of calcium hydroxide, must not exceed 7·5 per cent.

(5) It shall be of such stability that after passing four weeks in an oven kept at 140°F (±2°) the percentage of available chlorine shall not decrease more than 2.

(6) The powder to be put up in ½ lb. tins, the date of tests by the manufacturer to be stamped on the base of each tin.

(7) Each tin and contents (except the measure, which may be used again) whether partially used or not, to be renewed within one year following the date stamped on the tin.

(8) Each tin to contain a measure, made of a material resistant to chlorine, to contain 60 grains of the powder, when full i.e., sufficient to chlorinate approximately 200 gallons of water.

No. 2951—2964.—In supersession of the orders contained in the Resolution of the Government of India in the Home Department No 2831—2842, dated the 8th December 1859, the Governor-General in Council is pleased to issue the following instructions with regard to certificates of identity

2. Every native of India who contemplates proceeding out of India to foreign countries is strongly urged, before leaving, to furnish himself with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (or a Presidency Town and in the town of Rangoon, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. Appeals for assistance by destitute Indians who desire repatriation and by students who owing to embarrassed circumstances are unable to complete their course of education cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other attentions

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of or in addition to a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

Simla, the 2nd August 1916

No. 6687.—The following letter received from the Government of the East Africa Protectorate is published for general information :—

THE SECRETARIAT, NAIROBI,
EAST AFRICA PROTECTORATE,
June 27, 1916.

Sir,

I have the honour to inform you that the Government of British East Africa Protectorate has recently had under consideration the desirability of enforcing more strictly the provisions of the Immigration Restriction Ordinance, 1908, and the Immigration Restriction Amendment Ordinance, 1910, copies of which are enclosed herewith.

2. Section 13 of the original enactment provided that any person appearing to be a prohibited immigrant under section 3 (a)* might be permitted to enter the Protectorate on payment of a deposit according to nationality.† In the course of time this restriction was shown to be acting as a deterrent in the case of persons who paid it will be admitted to the country, and the amending Ordinance was promulgated whereby the Immigration Officer was empowered to accept security in lieu of the deposit.

3 In the great majority of cases no arrangements for this security are made prior to embarkation and in consequence such persons have hitherto been allowed to land in order that they may be given the opportunity of finding a surety. This concession has led to abuse and in itself objectionable inasmuch as the deposit prescribed by section 11 of the Ordinance of 1908 is payable before landing and if this section is read together with section 3 (1) of the amending Ordinance of 1910 it is clear that the demand for security must also be complied with before landing.

4. The Government has therefore decided that all immigrants should either make the necessary deposit, or provide the security required, before leaving the ship on arrival in port. The strict enforcement of this regulation will take effect as from the 1st of September 1916 and I have the honour to request that steps may be taken to make this procedure known in those districts from which immigrants to British East Africa usually arrive. Persons who cannot deposit the necessary sum or have failed to find the requisite security will after that date be sent back to India, and the Government of the Protectorate will not hold itself responsible for any expenditure thus incurred.

I have the honour to be,
Sir,
Your most obedient servant,

C. C. BOWRING,
Chief Secretary to Government.

Local Governments and Administrations are requested to make the information contained in the letter as widely known as possible, particularly in places from which emigration to British East Africa is believed to be most common. Intending emigrants should also be warned of the risks they run in proceeding to the Protectorate if they are unable, before landing to deposit the sum of Rs 50, or to comply with the demand for the requisite security in lieu of the deposit.

V. N. VISWANATHA RAO,
Secretary to Government.

---

* The section prohibits the immigration of any person whose whole means of support or any person who is likely to become a burden on public charity.

† The deposit required from a native of India is Rs. 50.

(G.O. Ms. No. 41, L. & M.)

No. 8.—M.R.Ry. Sankara Venkata Rao Pantulu Garu, Chairman, Municipal Council, Guntur, was called upon to show cause why he should not be removed from the office of Chairman of the Municipal Council for having deliberately disobeyed the provisions of the Madras District Municipalities Act, 1920, and for having abused the powers vested in him, in respect of the following matters:—

(i) that at a meeting of the Council held on 29th October 1932 to discuss a motion expressing want of confidence in him, he disallowed the motion for no valid grounds and arbitrarily and illegally dissolved the meeting without its consent and without allowing it to transact the business for the day;

(ii) that at the meetings of the Council held on 8th December 1932 and 13th December 1932 when leave of the Council to make a motion expressing want of confidence in him was asked for by Mr. Laljan, a councillor, he disallowed the motion on the very same grounds as those on which he disallowed the discussion of a similar motion on 15th August 1932, in spite of clear instructions from the Government that the grounds on which he disallowed discussion on the motion of 15th August 1932 were improper and amount of to disobedience of the provisions of the Madras District Municipalities Act and of their warning that they would be constrained to take drastic action against him if such irregularities were repeated; and

(iii) that at the meeting held on 13th December 1932, he admitted a motion made by another councillor for

leave of the Council to make a motion expressing want of confidence in him but fixed 3rd January 1933 as the date for the discussion of the motion, in contravention of the express provisions of the Act.

No satisfactory cause against his removal having been shown the Government hereby remove M.R.Ry. Sankara Venkata Rao Pantulu Garu from the office of the Chairman of the Guntur Municipal Council under sub-section (1) of section 40 of the Madras District Municipalities Act, 1920.

* NOTE.—The Lower and Higher grade examinations in Shorthand will not be held at Berhampur.

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of fifty, the candidates that selected that centre must be prepared to proceed at their own expense to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

2. *If a candidate who belongs to one Indian State selects a centre in another Indian State, he should submit his application for admission to the examination through the educational authorities of the State to which the centre selected belongs, so that they may have an opportunity of disallowing the selected centre and directing the candidate to select a centre in the State of which he is a resident. When objection is not taken, candidates may conclude that their names will be registered for examination at the centre mentioned by them in their applications.*

3. No notice will be taken of the Application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the centre of examination entered in his application, which must invariably be the place where he is employed or ordinarily resides or should it not be a centre the place nearest to it where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examinations in any of the subjects mentioned at any other place if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Ordinarily, however, only one place will be constituted a centre for each district.

5. Candidates whose examinations cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

III. SCALE OF FEES, WHEN AND WHERE TO BE REMITTED BY CANDIDATES.

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

Note.—The examinations in Co-operation and Auditing will be in the Higher grade only, there being no examination in the Lower grade.

2. Candidates who have passed in the Second Class in any subject and grade may come up to qualify for the First Class in that subject and grade on paying the full examination fee.

3. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Imperial Bank of India, and the receipt (supplied to candidates along with form of application) signed and given by the Treasury Officer or the Imperial Bank of India attached to the application, which in every case reach the Commissioner's office on or before the 31st January.

Applications for admission to the examination submitted after the prescribed date will be entertained only on payment of a penal fee of one rupee each and no such applications will be entertained after the lapse of fifteen days from the prescribed date.

On no account will the fees be received in the Commissioner's office whether sent in cash or by Post Office orders. Neither M.O. coupon nor any temporary receipt will be issued even if the amount can be expected. It is therefore useless to wait upon the candidate to obtain receipt from the Treasury officer to whom the money was sent and forward the receipt as claimed to this office in time, save being in a position to see that they are also on the files of the Treasury officer presented for the submission of applications. No application will be registered unless it reaches the Commissioner's office by the date prescribed.

4 *The fee paid will in no case whatsoever, be refunded nor will it be received for a subsequent examination. Neither will any excess fee that may have been erroneously paid be returned. Candidates are expected to study the Notification carefully and strictly themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can if necessary, proceed at their own expense, beyond the limits of the town-station centre selected by them, for the purpose of undergoing the Written or the Oral and Practical Examinations.*

IV APPLICATION FORMS—PROCURING OF—FILLING IN AND THE SUBMISSION OF APPLICATIONS ON OR BEFORE THE 31st JANUARY

2. Only one form of application should be used by each candidate, although he may bring up several subjects and stands up for different grades.

Applications prepared in manuscript or typewritten forms or forms intended for other examinations will not be accepted.

To admit of the applications reaching the Secretary to the Commissioner for Government Examinations, on the due date candidates should send their fees ordinarily early, even three or four days before the latest date so that the application together with their enclosures may reach the office on or before the prescribed date for receipt of applications.

Note.—Women candidates should write the letter 'W' in brackets against their names in column 4 of their applications.

5. Only one centre ought to be selected by each candidate, although he may offer several subjects for examination and come up for different grades. The centre selected must invariably be the place where he is employed or ordinarily resides.

All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no application of any private candidates being enclosed with those applications.

6 Every application should contain satisfactory proof of the applicant's general educational attainments by means of which he is eligible to appear for the examinations in the subjects and for the grades he chooses to come up for.

Note.—(i) In the case of those candidates who have completed the Secondary School leaving Certificates, full particulars with regard to the names of school, the year when and the serial number of the certificate.

8 *The occupation or profession of candidates, or the appointments held by them and their addresses (postal address) should invariably be stated in full in column 10 of their applications.*

Note.—Candidates should particularly see that they do not fail to state and date their applications at the columns provided for the purpose.

9. Heads of institutions are requested to see, before the certificate at the back of the application form is signed by them, that the qualification has been recognised by the Director of Public Instruction, Madras, or by the Director of Industries, Madras, as fitted to impart instruction in the Technical subjects and for the grades in them brought up by their pupils and that they agree in the application and the number and date of the proceedings of the authority that accorded such recognition.

N.B.—Heads of institutions recognised for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical Examinations.

Note.—(i) Candidates are particularly requested to note carefully the instructions printed under the headings 'I. Subjects and Grades of Examinations and II. Note.—Only one particular kind of machine should be used by the candidates throughout the examinations.

3. Seats and accommodation for the candidates:—

(a) Candidates will be permitted to bring with them for their use at the examination hall their own tables, chairs or stools, if they choose, provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their register numbers at the left hand corner of their answer papers and the particular kind of Typewriter they use at the right hand corner, typed before the question paper is given to them.

4. Candidates are strictly told not to write anything on the question paper itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further candidates are strictly warned not to take carbon copies more than what is required of them on the question paper.

5. The candidates will, if necessary, be examined *in batches*, but at least *every two* candidates for the Lower grade, at least *every two* candidates for the Higher grade, must have their machines among them.

6 Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and Instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. 8. If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate that to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must however, be clearly understood that the Superintendent incurs no responsibility in the matter, his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the Manager or Instructor.

A similar concession will be allowed in the case of a private candidate if he has someone outside who is willing to inspect the machine and put it right, etc

No extra time will be given to candidates to compensate for loss of time while the machines is out of order and is being put right.

In the Mufassal

Heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned four days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras

Candidates who do not hold tickt to will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconveniences and possible disappointment it is of great importance that their pupils should be instructed in batches and private candidates who desire to be similarly examined are particularly request d to call at the office on Thursday, the 19th January 1933, with all the necessary information as to the batch r and name of candidates that will attend at the particular batch on the day fixed for the examination and also in each batch of names on accordingly. *No ticket can on any account be sent by post whether to heads of institutions or to private candidates.*

Candidates that have each a separate machine and that do not wish to be examined in batches are expected to appear for their examination with the third batch for the Lower grade. But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.

Candidates for the *Higher grade* may appear for the first or second batch at their option and *no tickets accordingly are issued for this grade.*

Instructors Hall Ticket.—Managers of Instructors of Institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Thursday, the 19th January 1933, and have their names registered. Tickets of admission specifying their names, the institutions to which they belong etc., will be issued to them and these should be produced at the entrance to the examination hall.

Both at Madras and to the Mofussil.

The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

6. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers except their question papers, out of the examination hall.

8. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on the point in the examination hall from the Chief Superintendent of the examinations.

9. No candidate will be allowed to exceed the time assigned to each paper.

10. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has come up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will do so without leaving his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Ch of Superintendent giving full particulars in regard to the matter *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the proper fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

12. Candidates are requested to note carefully the particulars printed in the nominal list and satisfy themselves whether they tally with those as given by them in their applications for admission to the examinations, so that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

13. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

[N o.—(1) Candidates are strictly forbidden to write or type their names in the answer papers.

(2) Candidates should distinctly understand that failure to furnish even any one of these particulars may involve the rejection of their answer papers particularly any answer paper sent up without the candidate's register number and name of centre will not be valued.]

15. *Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is in receipt of having had recourse to malpractices of any kind in connection with the examinations or whose answer papers contain objectionable matter, is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit, or, if the Commissioner is not satisfied for any reasons whatever as to the genuineness of his results, he may be required to undergo a re examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared his success or failure being determined on the results of such re-examination.*

16. Candidates are forbidden to communicate with the Examiners, should they do so their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

17. No information can be furnished in regard to the result of a candidate as in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. No. 11 —

The following rules for control of the preparation, possession and sale of denatured spirits in the Madras Presidency have been framed by the Commissioner of Excise under sections 6, 7, 11, 12, 13, 15, 24 and 29 (2) (aa) of the Madras Abkari Act I of 1886 as amended by Act I of 1905, Act I of 1910 and Act 1 of 1918, in revision of all existing rules on the subject

1 *Definition.*—*Denatured spirit* means spirit subjected to a process prescribed by the Local Government by notification for the purpose of rendering it unfit for human consumption. The process prescribed for ordinary denatured spirit in the Madras Presidency is the admixture with spirit of at least 50 degrees over-proof, of light caoutchoucine and pyridine bases in the proportion of half a gallon of light caoutchoucine and half a gallon of pyridine bases to 99 gallons of spirit. The light caoutchoucine and the pyridine bases must answer the laboratory tests described in the appendix. *Methylated spirit* means denatured spirit rendered effectually unfit for human consumption by the admixture of crude wood naphtha in the proportion of one part of crude wood naphtha to nine parts of spirit. The use of crude wood naphtha in a highly purified condition is not permitted.

Denaturation by other processes may be permitted by the Commissioner of Excise.

2. *Duty.*—Spirit manufactured and denatured locally shall be exempt from excise duty.

3 *Import.*—Denatured spirit may be imported by sea, but samples must be submitted to the Customs laboratory and there certified to be fully denatured before it can be removed from the custom house. In the case of imports by sea from other provinces of British India, a certificate from the Collector of Customs at the port of shipment to the effect that the spirit has been fully denatured with light caoutchoucine and crude pyridine bases may be accepted.

Denatured spirit may be imported from other provinces by land with the previous permission of the Collector, provided that the spirit to be imported has been fully denatured as laid down in rule 5 and provided also that such spirit is transported from the frontier to its destination under cover of a permit in Form G. 9.

Spirit, which it is proposed to import, that is not sufficiently denatured must either be denatured afresh at the expense of the importer or it must pay duty at the full tariff rate as potable spirit.

Methylated spirit may be imported only with the special sanction of the Commissioner of Excise.

The import of quantities within the limits of private possession is not covered by these restrictions.

4. *Export.*—Denatured spirit may be exported by distillers and holders of D.S. 2 licences to places outside the Presidency under a permit in Form G 9 granted by the Collector of the district of export. When applying for the permit the exporter shall except in the case of exports to Bengal, present to the Collector a permit authorising the import from the Collector, or other officer empowered in that behalf, of the district to which the spirit is to be exported. In the case of exports to Bengal, the applicant should be required to produce his licence to show that he is entitled to possess the quantity applied for.

5 *Manufacture.*—Denatured spirit may be manufactured by holders of distillery licences in the Presidency provided (1) that the light caoutchoucine and pyridine bases or wood naphtha to be mixed with the spirit must first be tested and approved in the Commissioner's laboratory, (2) that they must be kept under lock and key by, and used under the supervision of, the distillery officer and (3) that they must be used in the proportions prescribed and in the manner defined in rule (1) and the appendix to these rules. The Commissioner's previous sanction must be obtained for the employment of special methods of denaturation for spirit intended for use in particular arts and manufactures.

6. *Licences—Wholesale vend.*—The distillers who manufacture denatured spirit will be allowed to sell to holders of licences under these rules either from their distilleries direct or from depots established with the approval of the Collector quantities not exceeding 150 gallons of denatured spirit or 20 gallons of methylated spirit at one time. The wholesale depot licence shall be in Form D S.1 and may be given at the discretion of the Collector to distillers, direct wholesale agents of distillers and to holders of D S 2 licences who want to sell to other holders of D.S licences. Issues from D S 1 shall be covered by permits in Form G.9 to be granted by the licensee

7. *Licences—Retail vend.*—Licenses in Form D S. 2 for the sale of denatured spirit may be granted by the Collector to respectable persons on their showing that they have a demand for such spirit. The licensee may sell in quantities not exceeding 50 gallons to officers of Government for Government purposes and not exceeding one gallon to private persons. Issues in excess of one gallon shall be covered by a permit in Form G.9 to be granted by the licensee.

8. *Licences to varnish-makers and others.*—Licences in Form D S.3 may be granted by the Collector to varnish-makers and others for possession of denatured spirit in such quantities as the Collector may determine on consideration of their reasonable requirements for use in their business but not for sale. But Government officers are exempted from taking out a licence for possession and use of denatured spirit for Government purposes.

9. *Licences for railway companies.*—Licences in Form D S 4 will be issued to railway companies for the storage and use of denatured spirit and its distribution to such stations on their respective lines as may be specified in the licence but not for sale. The railway companies will be exempted from taking out separate licences for individual stations for possession and use of the spirit received from the D S. 4 premises, but transport of spirit in excess of a gallon shall be covered by a permit in Form G.9 to be issued by the licensee in each case.

10 *Licences to chemists and druggists.*—Licences in Form D S. 5 will be granted by the Collector to

chemists and druggists, who for special reasons require methylated spirit.

11. A licence fee shall be levied at such rate and in such manner as will be prescribed by the Commissioner from time to time, on all licences except D S 1 and D S. 4. A fee at the rate of the prevailing Bazaars fee will be levied from D S.1 licensees on all quantities not accounted for by sale in their accounts.

12. *Limits of possession.*—The quantity prescribed as the limit of private possession of denatured spirit is one Imperial gallon. The limit of possession of methylated spirit is one reputed quart.

13 *Permits for transport.*—No denatured spirit shall be transported in quantities exceeding ten imperial gallons except under a pass in Form G. 9. Copies of permits issued by D S. 1 and D S 2 licensees shall be sent to the Inspector of the Circle to which the denatured or methylated spirits are transported.

14 *General conditions applicable to all licences.*—(i) No shop or depot for the vend or storage of denatured spirit shall be located in the same building with any shop for the sale of intoxicating liquor for consumption on the premises.

(ii) The licence must be hung up in a conspicuous place within the depot or shop.

(iii) No depot or shop shall be kept open between the hours of 9 p.m. and 6 a.m.

(iv) Denatured spirit kept for sale shall be of good quality and unadulterated. The sale of denatured spirit whose hydrometer or apparent strength is below 50° O.P. is prohibited. Any attempt to render such spirit fit for human consumption is punishable under section 55-A of the Madras Abkari Act. Should any inspecting officer be of opinion that any spirit found by him on inspection is insufficiently denatured, he shall report the matter to the Collector and may at the time of inspection remove the spirit in question or cause the receptacle to be sealed and submit a sample to the Commissioner's laboratory for analysis and report. If the analysis shows that it is insufficiently denatured the spirit shall be at once treated afresh or, failing this, destroyed.

(v) True accounts of transactions shall be maintained from day to day in ink in Form D.S. 7 by the holders of licences other than those in Form D.S. 1 who shall maintain their accounts in the form appended to their licence. The accounts and permits shall be in printed books which may be obtained from local Revenue officers on payment of cost price. Accounts, invoices relating to imports, the permits received and the counterfoils of permits issued, shall be preserved for one year after the period covered by the licence and shall be produced when called for by any officer not below the rank of Sub-Inspector of the Excise Department.

(vi) No privilege of storage or vend shall be sold, transferred or sub-rented, without the Collector's previous permission. Nor, if the Collector so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

(vii) With the sanction of the Commissioner of Excise, any licence shall be revocable by the Collector on giving the licensee fifteen days' notice of such revocation.

(viii) The premises for which the licence is granted shall be open to inspection by an officer of the Excise Department not below the rank of Sub-Inspector; and the Inspector shall be furnished with such information regarding the quantity of spirit used as may be required by him.

(ix) An Inspection note-book with pages numbered consecutively shall be maintained for the use of inspecting officers and shall be handed over to the Inspector of the Circle or to any other officer authorized by him to receive it on a receipt being given therefor.

(x) Every bottle, jar and cask containing $\frac{\text{denatured}}{\text{methylated}}$ spirit received into or kept for storage or sale shall be conspicuously labelled or branded with the words "made and $\frac{\text{denatured}}{\text{methylated}}$ in India" or "made in $\frac{\text{denatured}}{\text{methylated}}$ in India" or "made and $\frac{\text{denatured}}{\text{methylated}}$ in India" as the case may be.

(xi) Licensees shall be bound by any additional rules that may be prescribed by the Commissioner of Excise from time to time.

(xii) In case of breach of any of the conditions of a licence it shall be competent to the Collector to impose a fine not exceeding Rs. 100 for every such breach or to cancel the licence forthwith. The imposition of a fine or cancellation of a licence shall not be held to prevent the licensee from being prosecuted under Act I of 1878.

APPENDIX.

OFFICIAL LABORATORY TESTS TO ASCERTAIN THE SUITABILITY OF SAMPLES OF LIGHT CAOUTCHOUCINE AND PYRIDINE BASES FOR DENATURING ALCOHOL.

I SPECIFICATION OF LIGHT CAOUTCHOUCINE.

1. *Nature.*—By "caoutchoucine" is meant the liquid obtained by the dry distillation of vulcanized rubber. By "light caoutchoucine" is meant the liquid obtained by redistilling "caoutchoucine" and collecting that portion which passes over at or below about 200° C.

2. *The specific gravity of light caoutchoucine.*—The specific gravity of light caoutchoucine at 60°F. should lie between 0·835 and 0·860 referred to water as 1·000.

3. *Boiling test.*—For the purpose of this test, 100 c.c. of light caoutchoucine should be re-distilled in the pyridine testing flask (see specification for pyridine bases). Under these conditions not more than 15 c.c. of distillate should pass over at or below 100° C. whilst a total (including the foregoing) of at least 70 c.c should pass over at or below 200° C.

4. *Absence of soluble constituents.*—When 25 c.c. of light caoutchoucine are shaken with an equal volume of water in a stoppered graduated cylinder and due time is allowed for the liquids to separate again into two layers, the light caoutchoucine should show no appreciable diminution in volume.

5 *Neutrality.*—The aqueous layer obtained from test (4) should show no marked acidity or alkalinity when tested with both red and blue litmus papers.

6. *Limit of unsaturated hydro-carbons.*—At least 70 per cent of the light caoutchoucine should be soluble in concentrated sulphuric acid. For testing this, 25 c.c. should be measured off into a lipped and stoppered separating cylinder of suitable capacity and sulphuric acid should be added, at first with great care and in very small quantities. After each addition of acid, the cylinder should be shaken and cooled to avoid loss of volatile constituents. Sufficient acid must be used (usually about 50 c.c.) for the high-coloured layer to become quite fluid so that it can separate readily from the upper layer of unattacked constituents. After a final thorough shaking and cooling, the cylinder should be left for about three hours to effect complete separation of the two layers and the lower layer be then tapped off. The almost colourless upper layer should be again shaken with strong sulphuric acid until it appears free from soluble constituents (as judged by the colour imparted to the sulphuric acid) and separated as before after standing. It should finally measure not more than 7 c.c. The acid used should be of specific gravity 1·84 and may be of commercial quality.

7 *Freedom from water.*—Light caoutchoucine should not contain any appreciable amount of water. Any officer engaged in drawing samples for test should certify on the bottle that he has drawn the sample from the bottom of the containing vessel where the water, if present, will be found. For this purpose he should employ a syphon tube of which the shorter limb reaches to the floor of the containing vessel. He should also assure himself that the sample is collected in a bottle free of moisture.

II SPECIFICATION OF PYRIDINE BASES

1 *Colour.*—The colour must not ordinarily be darker than that given by two c.c. of deci-normal iodine solution dissolved in one litre of distilled water.

2. *Miscibility with water.*—The pyridine bases should mix readily and completely with spirit and should give a clear or only slightly opalescent solution when mixed with twice their volume of water.

3. *Amount of water present.*—From 20 c.c. of the pyridine bases mixed with 20 c.c. of caustic soda solution (density 1·4) at least 18·5 c.c. of the bases should separate after having been repeatedly shaken together and allowed to stand.

4. *Titration.*—Dissolve 1 c.c. of the pyridine bases in 75 c.c. of distilled water. Titrate with normal sulphuric acid until a drop of the mixture gives a definite blue spot on congo-red paper (the blue colour of the spot disappears). At least 9·5 c.c. of the normal sulphuric acid should be required to produce this reaction. (To prepare the congo-red paper, dissolve one gram of congo-red in one litre of distilled water. Soak filter paper in this and then dry.)

5. *Cadmium chloride reaction.*—Vigorously shake together 10 c.c. of a solution of 1 c.c. of pyridine bases in 100 c.c. of distilled water with 5 c.c. of a 5 per cent solution of dry lead cadmium chloride. A distinct crystalline precipitate should immediately result, and there should be an abundant separation of crystals within ten minutes.

6. *Ammonium chloride reaction.*—To 10 c.c. of a solution of 1 c.c. of pyridine bases in 100 c.c. of distilled water add 5 c.c. of a 5 per cent solution of dry lead cadmium chloride. A distinct crystalline precipitate should immediately result, and there should be an abundant separation of crystals within ten minutes.

7. *Test for purity.*—Add 10 c.c. of the above 1 per cent aqueous solution of pyridine bases to 10 c.c. of a 5 per cent solution of dry lead cadmium chloride. A distinct crystalline precipitate should immediately result, and there should be an abundant separation of crystals within ten minutes.

8. *Boiling point.*—Distil 100 c.c. of the pyridine bases as the manner described below. At least 50 c.c. should distil over, at or under 140°C. and a total of 90 c.c. at or under 160°C.

Method.—One hundred cubic centimeters of pyridine bases are placed in a short-necked copper flask of about 200 c.c. capacity. The flask is arranged on an asbestos card which has a circular hole of 50 m.m. diameter cut in it. To the flask is attached a fractionating column (consisting of a tube 14 m.m. wide and 170 m.m. long, provided with one bulb) of which the side tube (being 1 cm. above the bulb) joins a Liebig's condenser of which the cooled part is at least 400 m.m. long. A standard thermometer is placed in the head of the column so that its bulb occupies the centre of the bulb of the column.

The speed of distillation is adjusted to 5 c.c. per minute the distillate being received in a graduated glass cylinder. At least 50 c.c. should distil over at or under 140°C. and 90 c.c. at or under 160°C. at a barometric pressure of 760 m.m.

If the barometer varies from 760 m.m. a correction of 1°C. for each 30 m.m. of variation should be applied (e.g., under 770 m.m. of pressure 50 c.c. of distillate should come over at or under 140·3°C., whilst under 750 m.m. the same amount of distillate should come over at 139·7°C.).

NOTE.—Pyridine proper is a single definite compound (C_5H_5N) boiling at about 115°C. 'Pyridine bases' are mixtures of pyridine with closely allied compounds, boiling at various temperatures. They are cheaper and more effective denaturants than the pure pyridine.

(Commissioner's Proceedings No. 1513, Abk., dated 19th July 1926, and Commissioner's Notification No. 851 dated 12th July 1926, published on page 1015 of Part II of the *Fort St. George Gazette*, dated 27th July 1926.)

2. The wood has been classified according to the classes noted above and intending purchasers are invited to inspect the wood before the sale, as no alteration in the classification will be allowed nor will complaints of any kind be admitted

3. The various classes have been stacked in the sandalwood godown in quantities of 5, 10 and 15 tons for convenience, but the quantities as exposed will not constitute an actual lot for which bids will be accepted. Each class of wood will be offered for sale separately in quantities of 15, 10 or 5 tons or less to suit the convenience of bidders. Bids will be per ton of each class of wood.

4. The sale will be subject to confirmation by the Conservator of Forests, V Circle, who does not bind himself to accept the highest or any bid.

5. Before being allowed to bid, each intending bidder must pay an earnest money deposit of Rs. 1,000. If paid in cash, immediately before the sale Rs. 1,000 should preferably be in the form of Madras notes for Rs. 1,000 or Rs. 500. A receipted treasury challan for the amount will also be accepted. In the case of intending bidders, who have previously bought sandalwood from the Forest Department, a cheque for the amount will be accepted, but the discretion to accept such cheques rests entirely with the officer conducting the sale

6. The earnest money deposit of unsuccessful bidders will be returned immediately after the sale is over, and that of successful bidders will be credited towards the first instalment of the purchase price.

7. Each purchaser shall, immediately a quantity is knocked down to him, sign his name at the foot of the sale list, in the column provided for the purpose, and such signature will be held as an admission, on his part of his having purchased that particular quantity and of having accepted the conditions of the sale notice. No person will be allowed to deposit and bid jointly at the sale

8. Immediately the sale is over, each purchaser, if his offer for any definite quantity has been accepted by the Conservator of Forests, will be furnished with a memorandum showing the total amount due from him. He shall remit 25 per cent of this amount, less the earnest money deposit, into the Imperial Bank of India at Coimbatore or Madras, within eight days of the confirmation of the sale and another 25 per cent before 28th March 1933, the balance of 50 per cent being paid on or before 15th May 1933, or against delivery whichever is earlier. Should any purchaser fail to make the necessary remittances by the due dates the money already remitted shall lapse to Government and the District Forest Officer will be at liberty to resell the wood in question at the risk of the purchaser, who shall be liable for any loss, but shall not participate in any profit which may arise by the resale.

9. After 50 per cent of the entire sale value has been paid to the credit of the Forest Department delivery of the sandalwood shall be made to the purchaser, provided that, until full payment has been made, a quantity of wood equivalent to 25 per cent of the full sale value shall remain unremoved, even though paid for.

10. On the purchaser's presenting challans at proof that 50 per cent of the entire sale value has been paid a proportion of the wood purchased will be weighed in his or his agent's presence and the quantity handed over to him as provided for in condition 9 supra. If, however, proof is produced that the entire sale value has been paid the whole of the sandalwood purchased will be weighed and handed over. The purchaser must take delivery of and remove the whole of the wood sold to him on or before 1st June 1933

11. The accepted bidders, when deputing their agents to take delivery, must furnish each agent with a power of

attorney duly stamped and bearing the signature of the person so deputed. A copy of the power of attorney must also be sent to the District Forest Officer by post, with four specimen signatures of the agent. Failing this, delivery may be refused pending verification, in which case the delay will count against the accepted bidder.

12. No further clearing or classification of sandalwood will be undertaken by the Forest Department nor will purchasers be allowed to clean any wood previous to weighment. The classification, cleaning and weighment as determined by the Forest Department, must be accepted.

13. After the wood has once been weighed and hauled over, if the purchaser fails to remove all the wood within the weeks all wood mentioned in clause 10, demurrage will be charged at the rate of Rs 2 per ton per diem from the last date fixed for delivery until the wood is finally removed.

14. No sandalwood shall be removed from the depot till a leave to remove it signed by the Officer of the Forest Department who delivered the wood, shall have been obtained and till every piece of sandalwood that can be stamped bears the District "sale hammer" mark.
